

**APPARATUS AND METHOD FOR MODELING
RELATIONSHIPS BETWEEN SIGNALS**

ABSTRACT OF THE DISCLOSURE

A projection is associated with a first signal and a second signal. The second signal includes a first portion associated with the first signal and a second portion not associated with the first signal. The projection at least substantially separates the first portion of the second signal from the second portion of the second signal. One or more parameters of a model are identified using at least a portion of the projection. The model associates the first signal and the first portion of the second signal.
